

SYSTEMS

//AUTEUR

Performance meets efficiency.

Blazing-fast performance without scaling drive count. The perfect choice for small to medium sized teams working on big video projects.

//AUTEUR CHASSIS DIMENSIONS: 17" W x 22" D x 3.5" H

OPTIMIZED FOR 4K/6K/8K COMPRESSED WORKFLOWS

The //AUTEUR is a shared storage solution that caters to the needs of modern creatives. With just a few easy steps, you can be up and running, collaborating on high-resolution source and intermediate video files. The included content management and workflow features, like the ability to create Folder Structure Templates, the Spaces Browser, and Snapshots, guarantee that your content remains well-organized, easily accessible, and fully protected.

BUILT FOR YOUR NEEDS TODAY AND READY TO SCALE

With creative.space's flexible OPEX model, expanding to meet your team's evolving capacity needs is a breeze. When you're ready for an upgrade, simply let us know and we'll adjust your contract to reflect the new monthly rate. We'll even ship the new drives straight to your door, ensuring minimal downtime. To accommodate more users or high-performance VFX workflows, all you need is an upgraded CPU, additional RAM, and NVMe drives.

KEY FEATURES:

- PCIe 4.0 Architecture
- Intel® 3rd Gen Xeon Processors
- 12 x Hot Swap SAS Bays
- 2 x 10 Gb/s Ethernet Ports
- 16/18/20 TB Helium-filled HDDs
- 3.2/7.68/12.8/15.36 TB NVMe SSDs
- 25, 40, 100 GbE NIC (Optional)

TARGET WORKFLOWS:

- Video Production
- VFX
- Multi-Channel Live Recording
- Content Distribution (CDN)

Multiple Ways to Collaborate

Centralized shared storage brings your team together in one place, keeping everyone on the same page with access to the same projects and media assets.

Mount to Desktop

Direct access to centralized storage spaces for accessing files in post production applications.

Bookmark and launch a file to mount the shared space and open it in the default application on your desktop.

Transfer Folders & Files

Upload and download from anywhere without zipping or using the cloud as a middleman.

Manage a queue in the transfer panel with the ability to pause, cancel, and change priority.

Share via Links

Custom Domain for each server gives every, space, folder, and file a URL for access via web browsers.

Media Support with an HTML-5 player, thumbnail generation, and metadata viewing for 200+ formats.

Screen Sharing

High-performance mode built into MacOS Sonoma enables remote editing with low latency without compromising color fidelity.

Parsec or HP Anywhere for Windows (Bring your own).

Secured via VPN with AES-256 encryption with peer-to-peer (P2P) networking.

Private Hosting

Co-locate your workstations in our datacenter with our cloud storage for high-performance remote editing.

Hosting starts at \$295 per month

Easy Access Control

Manage Permissions to control access to spaces, folders, and file using our built-in users and groups.

Folder Templates make it easy to stay organized with fixed permissions and custom variables in file/folder names.

Proactive Support

Monitoring over 2000 metrics every second to trigger 150+ pre-built alarms that trigger our support team.

Data Protection features ensure like self-healing and snapshots stop data loss from human-error to ransomware.
